ABOUT US

E.U.D. GROUP is a commercial-manufacturing company. Its main activity is the manufacture and sale

of washing powder, liquid detergents, fabric softeners, dishwashing detergents, cleaning agents for the

household, and body care products. Our goal is to produce products for our own distribution network,

for customers under their own private labels, and products tailored to meet the requirements of the

customer. Our team consists of an experienced and talented group of individuals involved in researching, developing, manufacturing and marketing FMCG products in the household chemical industry.

Our success

We have built an international business network, where we share the most valuable aspects of the development, production and commercial sphere with our partners. Premium service and mutual trust forms the integrity of our business with a focus on independent financial strength.

Our vision

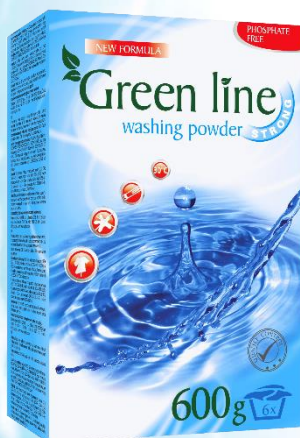

In the future, we aim to become the first and best choice for our customers.

The requirements of our customers are decisive for our further growth and the expansion of our production capacity is dictated entirely by their wishes and needs.

GREEN LINE STRONG

Description

A universal laundry detergent suitable for washing at temperatures from 30°C to 95°C of all kinds of laundry except for wool and silk. The detergent gently washes the laundry, reliably removes dirt and leaves the laundry with a pleasant scent. Our laundry detergents are also economical to use thanks to the washing efficiency and price ratio. To maintain efficiency, we recommend transporting the product in covered vehicles and protecting it from damage and weather effects. The product is to be stored in covered and dry storage rooms at the temperature from +5 °C to +25 °C out of reach of any heating bodies.

GREEN LINE BABY WASHING GEL

Description

A universal laundry detergent suitable for washing at temperatures from 30°C to 95°C of all kinds of laundry except for wool and silk. The detergent gently washes the laundry, reliably removes dirt and leaves the laundry with a pleasant scent. Our laundry detergents are also economical to use thanks to the washing efficiency and price ratio. To maintain efficiency, we recommend transporting the product in covered vehicles and protecting it from damage and weather effects. The product is to be stored in covered and dry storage rooms at the temperature from +5 °C to +25 °C out of reach of any heating bodies.

DISHWASHER DETERGENTS

Dishwasher powder removes grease and dirt. Suitable for users who prefer a variable dosage of detergent. Salt and rinse aid should also be used for the perfect result.

Dishwasher salt effectively softens the water and increases the cleaning effect of the detergent. Helps prevent scale build up in the machine, thus it protects and prolongs its life. At the same time, it prevents the scale build up and the formation of dried droplets on the dishes.

Dishwasher rinse aid agent an ideal detergent that delivers crystal clear glitter. Perfectly removes water residues. Effective when rinsing. It helps to remove both detergent and food residues from the dishes.
